

International Autumn School of Finnish Studies in Prague

The International Autumn School of Finnish Studies Prague 2018 is part of a four-year cooperative project run by departments and centers for Finnish studies at universities in Warsaw, Greifswald, Cologne, and the Faculty of Arts in Prague. The project has achieved financial support of the Finnish state organisation Opetushallitus, which is part of the Finnish Ministry of Education.

The aim of the project is to organise annual meetings of students and teachers of Finnish studies from four universities in three different countries. The meetings include lectures, conference papers, research projects presentations, and exchanges of experience. The event is also an opportunity to network and to discuss other forms of cooperation.

The language of the summer school is Finnish.

The autumn school takes place on 23 – 27 September 2018 at the Faculty of Arts in Prague. The opening ceremony will be held on Monday 24 September at 9:15 in Room 104 at the CUFA main building (nám. Jana Palacha 2, Prague 1).

For more information about the autumn school programme, see the website of the Finnish Studies at CUFA.
