

The Main Building of CU FA Is Closed on Wednesday, 30 March

Prague Water Supply and Sewerage Company plans a maintenance shutdown of water around nám. Jana Palacha on **Wednesday, 30 March 2022 from 7:30 am to 8 pm**. Because of the water outage, the teaching will not be possible in classes and neither to work at offices.

Libraries at the main building are also closed and the Centre of Scientific Information cancels its office hours.

Classrooms, offices, and libraries in other buildings of CU FA can be used as usual.

We ask the teachers to arrange an online form of teaching or to give substitute homeworks to their students. We ask the employees to work from home if possible.
