

Career Day at Charles University to Help with Employment and Career Growth

The event is taking place on 13 March 2024 in Kampus Hybernská and is intended for all students and recent graduates of Charles University, regardless of their faculty or study programme. It supplements the concept of career fairs organized by the individual faculties where specific employers usually present their opportunities.

You can choose from a range of lectures, presentations, mock work interview, career counselling, CV consultations, language proficiency tests, and a possibility to get a professional photo.

You may find the programme and registration on the Career Centre CU website.
