**Charles
University**

**SUSTAINABLE
DEVELOPMENT**
CHARLES UNIVERSITY

The grants are intended for student activities and projects that aim to contribute to implementing the Sustainable Development Goals in the environment of Charles University. This call is part of the forthcoming Sustainable Development Strategy of Charles University.

Projects can focus on innovations within student life,

faculty, or academic environments and on fulfilling the university's third role. It could be, for example, a new sustainable element in the student environment, an educational activity, or an awareness campaign for the members of the university or the general public.

The amount of CZK 350,000 is allocated for all projects. One project can apply for a maximum of CZK 60,000. The support will be paid in the form of a special-purpose stipend.

The selected project must be implemented and completed by 12 December 2024; the final report must be submitted by the same date.

You can apply using the form here.

You can find all information with terms and conditions of the grant on the Sustainable Development at Charles University website. For further information in English, please write to sustain@ruk.cuni.cz.
